

**BAYPHIL**  
CONSTRUCTION

## **ENVIRONMENTAL POLICY**

***EXCELLENCE – From the Ground Up***

The Management and Staff at BayPhil Construction Ltd work together to protect and enhance our environment while striving for a positive impact wherever we work

### **BayPhil Construction Ltd will:**

- Seek to minimise our environmental footprint through innovation, energy and resource efficient operations focusing on reducing, reusing and recycling
- Meet all Legal obligations relating to our work
- Identify impact and Implement effective controls
- Work closely with Subcontractors and Suppliers to ensure they meet our expectations
- Care about long term environmental impact

It is the Director's declared intention that BayPhil Construction cares about the long term environmental impact of our activities and continually looks for ways to improve our environmental performance.
